

TRUE Ways to Save™ co-pay savings program

For Commercial Insurance Patients

Patients
can save up to
\$250
annually with
TRUE METRIX®!*

The TRUE Ways to Save™ co-pay savings program offers savings solutions to you and your patients¹

PHARMACIST: Bill the patient's primary insurance plan using the TRUE METRIX® test strips and meter NDC/ Reimbursement Code. If the primary insurance plan denies the claim, the co-pay assistance program invokes and returns a lower co-pay.

TRUE METRIX® Meter: 56151-1470-02
TRUE METRIX® 100 ct.: 56151-1460-01

Provides your patients simple and easy access to your TRUE brand

Lower co-pay leads to better compliance and more loyal consumers

Easy processing for pharmacy staff

Take control of your test strip business and save your patients money by recommending the TRUE METRIX® today!

Frequently Asked Questions

Q: How is this program different from the C.O.B. card programs?

A: When there is a co-pay assistance card on file, you first need to bill the patient's primary insurance, and then complete a price modify. An Electronic Voucher Program does not require a price modify - the test strip & meter co-pay assistance is immediately applied electronically.

Q: What company facilitates the test strip and meter co-pay assistance process?

A: eRx Network is the electronic claims switch. They accept the prescription claims from the pharmacy, route to the Payor or PBM and then provide transmission of the return communication from the Payor or PBM to the pharmacy. In addition to transmitting prescription claims, eRx Network is the **co-pay buy down adjudicator**.

Q: Which test strip & meter co-pay assistance programs are offered through eRx Network?

A: Voucher on Demand™ and AutoRedeem™ Programs are offered through eRx Network. The Voucher on Demand™ program offers co-pay savings for TRUE METRIX® Test Strips if the NDC/Reimbursement Code is qualified. In the event it is being blocked, the AutoRedeem™ program invokes and returns a guaranteed low co-pay.

For meters, if the primary insurance plan denies the claim, the AutoRedeem™ program invokes and returns a low co-pay.

Q: Are there any exceptions as to when the test strip and meter co-pay assistance programs won't apply?

A: Certain private or commercial third-party plans may not honor test strip and meter co-pay assistance programs. Any plans in which the government is the end payor are also excluded; this includes Medicare, Medicaid or TRICARE.

Q: What is required in order to take advantage of these programs?

A: Simply enter the appropriate product NDC/Reimbursement Code. If the claim is eligible, the test strip and meter co-pay assistance will be applied.

Q: How will I know that the test strip and meter co-pay savings have been applied?

A: After the transaction has been adjudicated, the terminal screen will show this message:

Trividia has applied a \$voucher to reduce the patients copay. Mention sponsorship to patient. OLD Copay: \${OLDF5}, NEW Copay: \${505-F5}, Voucher Amount Applied: \${566-J5}

Q: What if I am having trouble processing a claim through the TRUE Ways to Save™ co-pay savings program?

A: Contact eRx Network Support at 844-225-7518. Please have the following information on hand prior to contacting the support center:

- Pharmacy NPI Number – unique number that identifies the pharmacy
- Prescription Number – the unique number assigned to the prescription
- Date Processed – the actual date the claim was processed for payment

Q: What if I am not currently signed up on any of the programs?

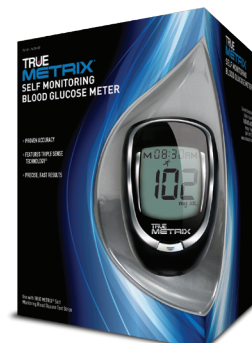

A: The Voucher on Demand™ Program is available to all pharmacies. Simply call 844-225-7518 or email support@erxnetwork.com.

To sign up your pharmacy to the AutoRedeem™ Program, simply contact your Pharmacy Management System (PMS) Account Manager.

For more information, contact your Trividia Health Account Manager at 1-800-877-6161.

Product Description	NDC/Reimbursement Code
TRUE METRIX® Self-Monitoring Blood Glucose Meter	56151-1470-02

1. Program does not cover cash claims, claims rejected by a managed care plan; discount card claims; or claims where government is the end payor including Medicare, Medicaid or TRICARE. Tiered co-pay savings based on Test Strip quantity dispensed. Once meter is processed for reimbursement, you cannot submit for claim to any other third-party payor. If the primary insurance plan denies the claim, the co-pay assistance program invokes and returns a low co-pay.
